| Gauge | | Max Load kW | |
| Transfer Pump | | Lube Oil Drain Pump | Yes |
| | | Anti Vibe Mounts | Yes x14 |
| <p>This generator was one of many in a data call center for a UK bank. The generator was run to 100% load on monthly testing. This was maintained by a major service provider and is in very good condition. As these sets have been upgraded, the exhaust and the control panel have been retained on site. We can fit a new control panel to meet your needs (extra cost) and supply new noise reduction gas silencers(extra cost). As agents for FG Wilson, these sets will be sold fully serviced, tested and witness load testing is available. Full installation service can be provided. Warranty will be 12 months or 250 hours (whichever is first). The new retail price of this set would be £227,458.00. Last Service 10/3/16</p> | | | |
